Labor Category Descriptions:

COMMERCIAL JOB TITLE: ANALYST

Minimum/General Experience: Two years of professional analytical experience

Functional Responsibility: Applies knowledge and skills to support more senior staff in implementing project methodologies and completing assigned tasks. Responsibilities may include documenting and analyzing existing organization functions and structures; assessing current processes and procedures, and developing recommendations for improvement; gathering and documenting system requirements; assessing alternative approaches to meeting stakeholder requirements; supporting client planning efforts; establishing and managing program/project offices; preparation of reports.

Minimum Education: Bachelor's Degree in applicable discipline

COMMERCIAL JOB TITLE: CONSULTANT

Minimum/General Experience: Seven years of experience in functional and systems analysis

Functional Responsibility: Applies advanced programmatic and technical knowledge and skills to implement project methodologies and complete assigned tasks in accordance with engagement requirements and guidance from project management and executive leadership. May supervise other Consultants. Contributes to and helps lead engagement planning and engagement planning and methodology development, and assumes responsibility for achieving project milestones in accordance with established requirements and within existing cost, schedule, and technical constraints. Responsibilities include documenting and analyzing existing organization functions and structures; assessing current processes and procedures, and developing recommendations for improvement; gathering and documenting system requirements; assessing alternative approaches to meeting stakeholder requirements; supporting system acquisition planning; establishing and managing program/project management offices; performing independent verification and validation assessments; and supporting system design, development, and operation activities.

Minimum Education: Master's Degree in applicable discipline

COMMERCIAL JOB TITLE: PROJECT MANAGER

Minimum/General Experience: Six years of experience in related technical and management discipline

Functional Responsibility: Provides competent technical leadership and is responsible for ensuring successful delivery of various detailed and diverse elements of information technology projects. Assists the Program Director in working with government lead(s) to ensure work standards and schedules are being met. Is responsible for the management of a specific task, or for a particular portion of a larger, more complex project. Manages a group of functional activities and subordinate groups of technical and administrative personnel. Reviews quality of work products; organizes and coordinates planning and production of task activities. Contributes to staffing and planning activities supporting overall project. Is fully knowledgeable of all aspects of the technical areas involved in the assigned project.

Minimum Education: Master's Degree in applicable discipline plus applicable certifications

COMMERCIAL JOB TITLE: JR. SME

Minimum/General Experience: Five years of experience in related technical and management discipline

Functional Responsibility: Recognized functional or technical expertise directly related to project specific needs and requirements. Applies business practices to improve methodologies/principles and business processes. Evaluates solutions and applies, as appropriate, risk analysis and performance measurement techniques.

Minimum Education: Bachelor's Degree in field related to expertise.

COMMERCIAL JOB TITLE: SME

Minimum/General Experience: Seven years of experience in related technical and management discipline

Functional Responsibility: Recognized functional or technical expertise across multiple knowledge areas directly related to project specific needs and requirements. Works directly with agency/organization leaders to allocate resources and ensure final solutions meet agency/organization needs. Wide-spread reputation across community and discipline.

Minimum Education: Bachelor's degree in related area of expertise.
